european tubes ltd

SPECIAL NOTICE

European Tubes Limited is a well established stockholder and distributor in the supply of hot finished and cold drawn seamless carbon steel tubes. We have been assessed and certified as meeting the requirements of BS EN 9001:2008.

We offer a complete service from the sound technical knowledge of our sales team, through to the quality committed works backed up with our own transport fleet, giving you the right product at the right price, at the right time.

Although our stocks are comprehensive we welcome enquiries for any qualities or sizes not listed in this brochure. Our vast experience of sourcing goods from the European market coupled with our own stocks means a range second to none. Our tubes are generally stocked in random lengths however single or multiple precision cut lengths can be supplied to customer's requirements.

While our customer list includes some of the biggest names known in British industry it also contains many smaller firms. So whatever your requirement be it large or small try ETL for a friendly reliable service.

To compliment our extensive stock range that follows, please be aware we can also source, on short lead times, the following specifications;

Cold drawn seamless, metric sizes to specification EN 10305-1 E235+C.
Sizes from 6.0 – 250mm OD and 1.0 - 15mm wall.

Cold drawn seamless, mild steel tubes for hydraulic and pneumatic purposes:
To specification EN 10305-4 E235+N.
Sizes from 3/16" – 2" O.D. and 6.0mm – 42mm O.D.

Hot finishes seamless, mechanical, mild steel tube to EN 10216-1 P235 TR2.

Hot finished seamless and welded, mild steel pipes to specifications,
ASTM A106 grade B and API5L grade B.
Sizes from 1/4" NB – 36" NB with schedule walls from standard weight up to XXS.

BS1387 (EN 10255) Steam tube in self colour, black, red primer painted and galvanised
In medium and heavy thickness. Sizes from 3/8" NB up to 6" NB with plain ends or screwed
and socketed.

Welded, mild steel tube to specification EN 10305-3/5 E220. Sizes from 3/8" – 6" O.D. and
walls from 20swg (0.91mm) up to 8swg (4.06mm).

Boiler tubes to the following specifications.
EN 10216-2 P235GH TC1 and EN 10216-2 13 CrMo4-5.

NOTES
